Project

My Projects (My Projects Page)

[project1_link](#)

Technologies used : HTML, CSS, Bootstrap

Built a webpage for displaying a user's project portfolio to potential interviewers

- Assembled banner area and project cards by leveraging distinct HTML block and inline components.
- Enhanced the site's appearance using CSS3 techniques such as background, flex, and box model properties, as well as relative (vh, vw) and absolute (px) units.

Portfolio Website

[project2_link](#)

Technologies used : HTML, CSS, Bootstrap

A digital platform designed to showcase the talents and achievements of a person, with a focus on their portfolio, skills, and testimonials.

- Expertly crafted using HTML structure elements and Bootstrap components, delivering an attractive and responsive website.
- Includes a testimonial section, displaying glowing endorsements from satisfied clients and peers.

My Projects (My Projects Page)

[project3_link](#)

Technologies used : HTML, CSS, Bootstrap

Developed an online showcase of an individual's projects for interviewer assessment

- Crafted the banner segment and project cards with a variety of HTML block and inline elements.
- Refined the website's look with CSS3 methods, including background, flex, box model properties, and a mix of relative (vh, vw) and absolute (px) units.

Todos Application with Python

[project4_link](#)

Technologies used : Python

ToDo List App is a kind of app that generally used to maintain our day-to-day tasks or list everything that we have to do, with the most important tasks at the top of the list, and the least important tasks at the bottom. It is helpful in planning our daily schedules. We can add more tasks at any time and delete a task that is completed.

Features:

In this version of the ToDo list, the user will be getting four options:

1. Create (add) a new task or adding a new ToDo in the ToDo List App.
2. See all the tasks or View all the Todos that were added to the app.
3. Delete any ToDo from the list of Todos.
4. Exit from the app.

Freelance (Web Developer)

Jan 2021 - Oct 2023

Tadepalligudem, Andhra Pradesh

I have done freelancing previously for 3 years. I have an experience on the web development using different technologies like WordPress, Drupal, Magento, Shopify, React.js, PHP using Laravel Framework, Joomla, and many more other technologies.
